Corporate Profile
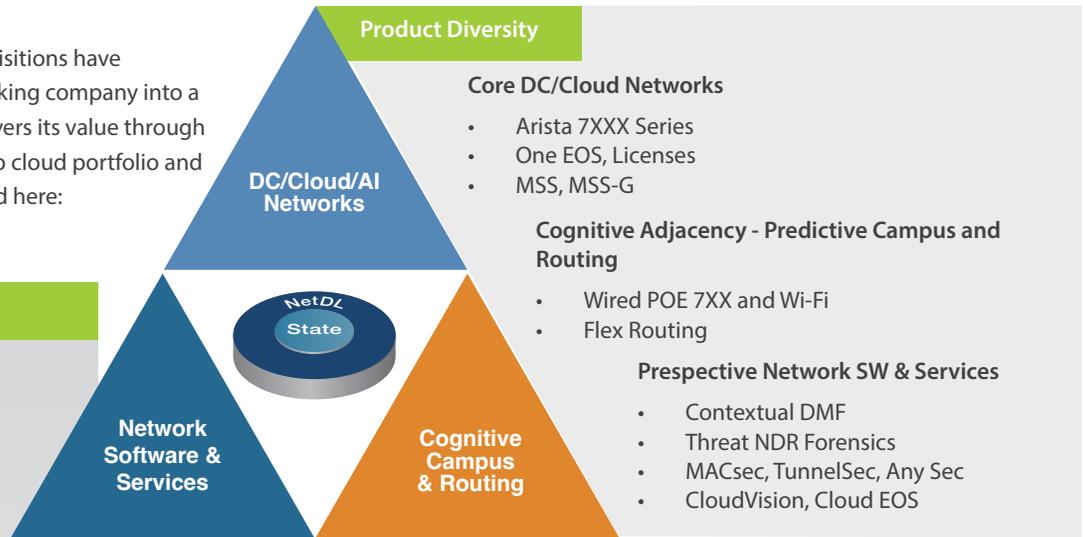

About Arista

Customers

Arista has a prestigious set of customers including Fortune 500 global companies in markets such as cloud titans, enterprise, financials and specialty cloud service providers. The company delivers products worldwide through distribution partners, systems integrators and resellers with a strong dedication to partner and customer success.

Technology

Arista's core technology and acquisitions have transformed Arista from a networking company into a data-driven AI company that delivers its value through the network. Its extensive client to cloud portfolio and product diversity is best illustrated here:

Quick Facts

Year Launched:
2008

Headquarters:
Santa Clara, California

Financial Highlights:
NYSE:ANET
Went public June 6, 2014

Notable Platforms:
Arista EOS , CloudVision, Arista AVA, DANZ Monitoring Fabric (DMF), 7000 Series

Key Verticals:
Cloud Titans
Cloud Specialized Providers
Service Provider
Financials
Enterprise
Media and Entertainment
Security

Acquisitions:
Mojo Networks, Metamako, Big Switch, Awake Security, Untangle, Pluribus, VeloCloud

Corporate and Securities Counsel:
Wilson Sonsini
Palo Alto, California

Auditors:
Ernst & Young
San Jose, California

Customers

Approximately 10,000+ Customers

Technology Partners

Amazon AWS, AttackIQ, Broadcom, Checkpoint, CrowdStrike, Equinix, Google/GCP, Intel, Microsoft/Azure, NetApp, Nutanix, Oracle, Palo Alto Networks, Red Hat /Ansible, Salesforce/Slack, SAP, SentinelOne, Splunk, VMware, Zscaler

Product Diversity

DC/Cloud/AI Networks

NetDL State

Network Software & Services

Cognitive Campus & Routing

Core DC/Cloud Networks
- Arista 7XXX Series
- One EOS, Licenses
- MSS, MSS-G

Cognitive Adjacency - Predictive Campus and Routing
- Wired POE 7XX and Wi-Fi
- Flex Routing

Prespective Network SW & Services
- Contextual DMF
- Threat NDR Forensics
- MACsec, TunnelSec, Any Sec
- CloudVision, Cloud EOS

First Product Releases

- **2004 -** The company was founded with a vision to revolutionize high-speed Ethernet at massive scale.
- **2008 -** Launched Arista EOS® (Extensible Operating System) and shipped its first commercial switching product.
- **2010 -** The company shipped its first modular spine product, the award-winning Arista 7500 Series, which was introduced as a revolutionary switching platform that maximized data center performance, efficiency, and overall network reliability.
- **2014 -** The company had its initial public offering on the New York Stock Exchange under the symbol ANET. Two million ports shipped to date.
- **2015 -** Introduced Arista CloudVision®, pioneering a modern network operating model across enterprises.
- **2016 -** Released the 3rd Generation 7500R, achieving one million routes and five million cumulative ports shipped.
- **2017 -** Launched Arista "Any Cloud" with vEOS Router for flexible multi-cloud connectivity.
- **2018 -** Introduced first Campus Switching Products. Acquired Mojo Networks and Metamako; surpassed 20 million cumulative ports shipped.
- **2019 -** Introduced 400G and Cloud EOS Any Cloud, advancing network performance and scalability.
- **2020 -** Acquired Big Switch Networks and Awake Security and achieved the #1 market position in the 100/200/400G ports market.
- **2021 -** Launched AI/ML-driven AVA security; reached 50 million cumulative ports shipped.
- **2022 -** Acquired Untangle and Pluribus Networks. The company introduced Arista CUE (Cognitive Unified Edge), a cloud-managed solution consolidating networking and security functions and 400/800G AI Networking solutions, expanding AI-driven data handling capabilities.
- **2023 -** Entered the WAN Routing market; achieved 75 million cumulative ports shipped.
- **2024 -** Celebrated the 20th anniversary of the company, 10th IPO anniversary, and the milestone of 10,000 customers. Reached 100 million ports installed globally and attained the #1 market share in data center switching. Launched Smart Etherlink™ 800G AI platforms, marking Ethernet as the de facto standard for the AI Center.
- **2025 -** In July of 2025 Arista expanded its AI-driven campus and branch networking offerings and acquired the VeloCloud   SD-WAN portfolio from Broadcom. This combination of innovations will bring operational ease through zero touch operations, proactive monitoring, and automated troubleshooting across the broad set of client-to-cloud networking domains.

Industry Accolades

- Sixth consecutive year Arista Networks has been recognized in the Leaders Quadrant of the 2020 Gartner Magic Quadrant for Data Center Networking published on 30 June 2020.
- Overall national winners of the 2015 EY Entrepreneur of The Year® US Award
- Top Places to work by the Bay Area News Group 2019
- Fortune 50 Company
- Forbes Fast Tech 25-America's Fastest Growing Companies
